SPIRITS COLLECTION

bruni glass

ARYA & JULIA

Arya is a product of the Super Premium line from the new Sublime Catalogue. A fifteen-step journey into the Sublime, the excellence of the packaging produced for top-end spirits, liqueurs and flavoured wines, in terms of its design, functionality and versatility.

ARYA

The glacial and lofty lines of this model meld into a gentle slope near the neck. A bottle with minimalist charm that captures the essence of the product and enhances its purity, thanks also to a wide frontal surface.

JULIA

A strong rectangular shape, sweetened by curves defining shoulders and base. A huge frontal surface to leave space to enhance the client's brand. Sophisticated lines meet a simple global image for a variety of solutions in terms of decoration.
